

Best Practices
for
Implementing the NEW
2010 Minnesota English Language Arts
Standards focused on Literacy in Science

Literacy in Science is a new feature in the 2010 English Language Arts Standards. Literacy will now be taught in **science**, social studies, and technical subjects, as well as in language arts. This session will focus on teaching literacy within the **science curriculum**.

- Explore the new literacy in science standards
- Learn strategies for doing literacy learning within your science content
- Learn how to support your students as they write informational text in science
- Participate in breakout sessions specific to elementary, middle, and high school science
